

Challis
Water Controls

CASE STUDY

SECTOR: Social Housing

CLIENT: Poplar Harca

CONT: Apollo & Breyer

LOCATION: Various Sites Across Est

PROJECT DESCRIPTION:

On going refurbishment programme of bathrooms across the housing stock to comply with Decent Homes Standard and the New Code for Sustainable Homes

CUSTOMER REQUIREMENTS: Under the New Code for Sustainable Homes and in order to meet and exceed the Decent Homes Standard across the Associations Housing stock Poplar Harca have embarked on an ongoing bathroom refurbishment programme. Customer key requirements centered around safety, reliability, sustainability and value for money. The long working life and reduced whole life costs of these units is an added benefit

UNITS FITTED: Challis Water Controls Housing Association House Kit including TMV safety approved bath shower mixing valve with water efficient riser kit complete, Challis Water Saving Monobloc basin tap c/w water hammer arrester. Challis Water Saving Monobloc kitchen mixer tap c/w water hammer arrester

SAVINGS ACHIEVED: Using Challis Water Control's water saving units has enabled us to meet our water saving targets under the New Code for Sustainable Homes without having to sacrifice performance and customer satisfaction. Installing these units under this refurbishment programme has meant that our tenants are saving on their water and heating bills not only now but into the future.

CUSTOMER COMMENTS & CONCLUSIONS: Challis Water controls Housing Association House Kit meets and exceeds all our key requirement with regard to safety and performance. Prompt delivery to site has meant that our contractors have not been held up and as such the programme is on time and on budget
