

Uniclass L725111	EPIC G611
CI/SfB (74.26)	X

DATA

Maximum Temperature 60°c
 Minimum Pressure 1.0 bar
 Maximum Pressure 12.0 bar
 Normal Flow Rates 3.5 Litres per Minute @ 3 Bar
 Thread Universal

MATERIALS

Internals ABS Plastic & Rubber

APPLICATION

Taps can have a huge variety of diffuser casings and threads and as such it is almost an impossible task to provide an aerator to fit any and all applications. The Challis universal fit aerator solves this problem by retaining the customers diffuser casing/body and replacing the full flow internals with Challis universal water saving aerator, effectively converting the customers diffuser casing into a water saving tap aerator instantly. The refurbished aerator can then be reinstalled into the tap to provide years of trouble free water and energy savings
 Challis water saving tap aerators conforms to the highest standards. Units are designed for use in a wide range of applications and can be easily and quickly fitted to most modern taps without interruption to the supply.

SPECIFICATION

0000-0018 3.5 litres per Minute

Aquiv8 Universal Fit Tap Aerator
